

Early Water Leak Alert & Mitigation Platform
Smart Buildings and MDUs

DETECT ESCALATE.RESPONSE.MITIGATE.PREVENT.

WHO IS LIKK TECHNOLOGIES?

We provide smart IoT sensor and data-enabled platform to help monitor, detect, and respond to water leaks quickly, intelligently, and effectively.

WATER LEAKS & DAMAGES
HIGHEST RISK TO BUILDINGS .  | **2**

EARLY DETECTION IS
THE KEY TO KEEPING
YOUR BUILDING **SAFE,**
DRY AND GREEN.

24/7.

Senior & Assisted Living Facilities:

Monitor every bathroom for leaks and water spills.

Avoid critical slips and fall.

Increase water conservation

Increase tenants safety

Reduce uninsured repairs costs

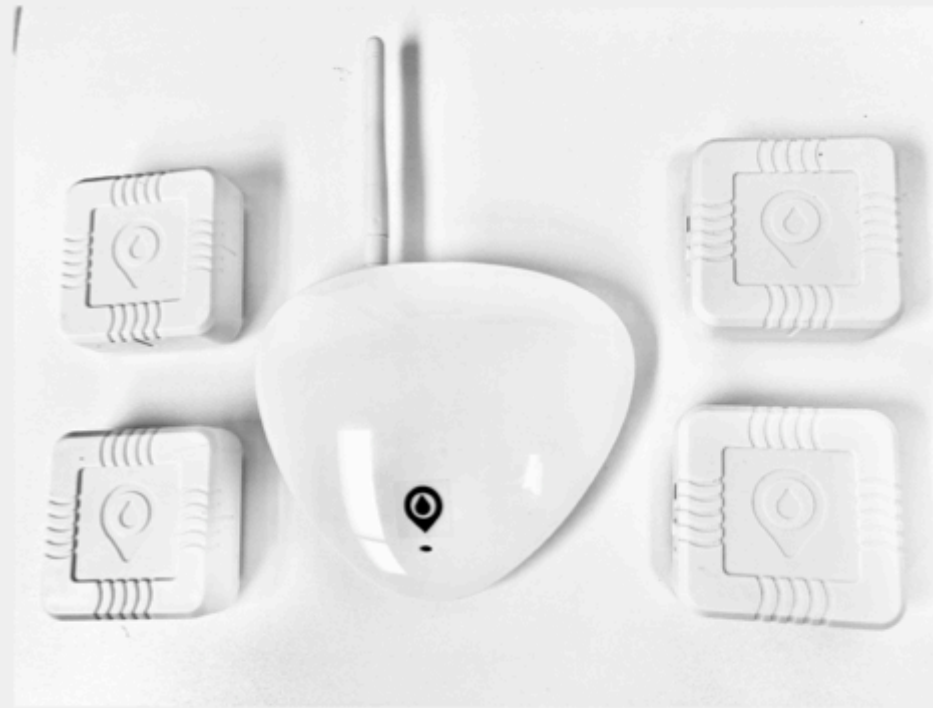

Reduce insurance costs and liability

LIKK SYSTEM

The solution:

Early detection water leak alert and damage mitigation all-in-one service totally trouble free operation.

Strategically placed in high risk areas

Early Water Leak Alert and Damage Mitigation as a Service

Full Coverage + Smart sensors + Customized alerts & escalation + Shutoff valves (optional)

RELIABILITY

Self contained independent connectivity

Tampering Detection

CUSTOMIZED ALERT

And escalation rules

AFFORDABILITY

Low cost of equipment

All-in-one service (monitoring-alert-data-upgrades and support)

Flexible financial plans (monthly-quarterly-semi-annual-annual or multi-year)

MULTIPLE STAKEHOLDERS

Customizable multi level of alerts (as many as the hotel needs)

DATA ANALYTICS

UNIQUE PROPOSITION.

LIKK MAIN OPERATIONAL CHARACTERISTICS

- **Reliable** communication system.
- **No Wi-Fi nor Internet** required.
- **Easy** to deploy.
- **Low** service and support **cost**.
- **Long battery life** expectancy.
- Equipment **upgrades included**.
- Tampering **notification**.
- Custom alert and escalation for **rapid response**.
- **Optional** Shut-Off Valves.
- Access to **data and analytics**.
- Customizable **multi level of alerts** (as many as the hotel needs).

LIKK BUSINESS BENEFITS

- **Low cost** of equipment & installation.
- **Fast ROI**, some cases within the year.
- **Trouble free all-inclusive** service model.
- **Reduce or eliminate** water related **losses**.
- **Reduce or eliminate** water damage repair **costs**.
- **Eliminate income loss** due to business interruption (unsaleable rooms or common areas).
- **Insurance premium savings 5-10% per year**.

ANALYTICS

View reports detailing of each leak event, critical areas most prone to leaks and any gradual water loss or waste.

DATA COLLECTION

Our "on the ground" sensor units capture leak-related data 24/7.

Accelerated ROI

1

INSURANCE SAVINGS

Estimated 5 and 10% premium reduction and lower deductible using our system.

2

OPERATIONAL ASPECTS

No loss of revenue, less costs of repairs and no insurance claims.

3

OPERATIONAL ASPECTS

Water bill savings, by reducing water wasted during unattended leaks.

4

PREVENTION

Data analytics will empower better maintenance and preventive actions.

5

SUSTAINABILITY AND SAFETY

Reduce guest aggravation, remote monitoring on vacant rooms. Attract new guests with sustainability and safety features. Reduce or eliminate revenue loss due to "non saleable" rooms.
